Explanatory Note

(This note does not form part of the byelaw)

This byelaw requires people who fish for commercial purposes from a registered fishing vessel for shrimps within the District to obtain a shrimp permit. They are also required to fish in accordance with any flexible permit conditions issued by the Authority.

Shrimp permits expire on the 1st August each year and a fee is payable to the Authority for the issuing of a shrimp permit which is £100 for a Category One Permit and £44 for a Category Two Permit.

The number of shrimp permits which will be issued by the Authority can be restricted. The Authority can also set criteria to determine which applicants are eligible for a shrimp permit.

To limit the number of shrimp permits or to introduce, vary or revoke eligibility criteria the Authority will carry out a consultation with potentially affected stakeholders and produce an Impact Assessment which will be considered by the Authority.

The issuing of shrimp permits may be suspended until the following 1st August if there is an enhanced risk to stocks or if there is an enhanced risk to site integrity of the Wash and North Norfolk Coast Special Area of Conservation.

The shrimp fishery within the Wash and North Norfolk Coast may be closed for a period or for periods of time not exceeding until the following 1st August if there is an enhanced risk to stocks or if there is an enhanced risk to site integrity of the Wash and North Norfolk Coast Special Area of Conservation.

This byelaw also allows the Authority to impose flexible permit conditions which will reflect best available evidence. These permit conditions will be used to protect fisheries and the environment and to ensure long-term, sustainable fisheries.

The Authority must also review any restrictions on the issue of shrimp permits or flexible permit conditions once every four years as a minimum.
