1 Introduction

Ørsted is an offshore wind farm owner and operator with ten operational wind farms in UK waters. Of these ten, the following offshore wind farms are located off the East Coast of England:

- Gunfleet Sands
- Westernmost Rough
- Race Bank
- Lincs
- Hornsea One

The purpose of this monthly Notice to Mariners (NtM) is to ensure that mariners are aware of any non-routine operations across the East Coast assets that could pose a risk to other sea users. Safety is paramount to Ørsted and this notice should assist in ensuring that both mariners and the Ørsted operational team can operate safely offshore. This NtM will provide:

- A regular, clear and consistent overview of non-routine operations
- Updates relating to lighting and marking
- Key contact details
- Access to detailed site information and figures
- Clarity on when Safety Zones and recommended safe separation distances are in force or requested

This Notice to Mariners will not provide:

- Information relating to routine maintenance carried out by Crew Transfer Vessels (CTV) or Service Operation Vessels (SOV).
- Any information relating to export cables
- Any information relating to offshore wind farms currently in development, construction or not operated by Ørsted

Subsea Cables

Subsea cables are installed across each offshore wind farm and are marked on the KIS ORCA charts referenced in Section 1.2. Please note the following advice from NP 100 The Mariners Handbook "Every care should be taken to avoid anchoring, trawling, fishing, dredging, drilling, or carrying out any other activity in the vicinity of cables which might damage them." This warning is repeated on all admiralty charts.

Wind Farm Positional Data

KIS ORCA Awareness Charts (including the layout and coordinates) and Fishing Plotter Files of the offshore assets referenced in this NtM can be found via the KIS ORCA website: <http://www.kis->

orca.eu/downloads#.XWUTQUxFwjZ. Should mariners require further information or any data in a format that can be used in a plotter or other device, please contact the Company Fisheries Liaison Officer, listed in Section 2 below.

2 Key Contacts

For further information on any of the activities listed within this notice, please use the contact details listed below.

3 Notice to Mariners Summary:

Site	Lighting and Marking Status	Survey	Jack-Up Vessel	Other Works
Race Bank	OK	None	None	String 1 replacement,
Westermose Rough	OK	Bathymetric Survey	Pacific Orca**	Full site bathymetric survey, Above water Inspections.
Lincs	OK	None	None	Structural inspection below water, Above water inspections.
Gunfleet Sands	A01, A06, E01 + G01 Navigation lights not fully operational	Bathymetric survey,	Wind Pioneer**	External Painting Campaign [°] **, Above water Inspections.
Hornsea One	OK	None	None	Nearshore export cable Structural inspection below water, USV survey, Array cable remedial*

* Formal 500m safety zone in place

° Licensable activity

** 500m safety distance requested

*** 200m safety distance requested

4 Race Bank – Notice to Mariners

4.1 Lighting and Marking Status

The lighting and/ or navigational warning systems are currently operational. On the 30th August once the String 1 cable replacement campaign commences (section 4.2.1) turbines D01 & E01 will not be operational. (Identified on figure 1 below)

4.2 Other Operations

4.2.1 String 1 cable Replacement

The Global Symphony will be completing String 1 cable (see & Figure 2) replacement on Racebank on or around the 20th August for approximately 28 days.

Mariners are requested to remain a safe distance of 500m from Global Symphony when it is observed undertaking String 1 replacement.

5 Westermost Rough – Notice to Mariners

5.1 Lighting and Marking Status

The lighting and/ or navigational warning systems are currently operational. No planned outages.

5.2 Other Operations

5.2.1 Full Site Bathymetric Survey Westermost Rough

Vessel, the Deep Seapal will be undertaking a full site bathymetric survey of Westermost Rough Windfarm, this will be carried out using a hull mounted multibeam echosounder. This work is due to start on or around the 25th August and the duration will be approximately 14 days. The vessel will have a fishing liaison officer on board for some of the works.

6 Lincs – Notice to Mariners

6.1 Lighting and Marking Status

The lighting and/ or navigational warning systems are currently operational. No planned outages.

6.2 Other Operations

6.2.1 Above water inspections

On the 2nd September we will conduct inspections within the WTG structure, it is expected to last around 7 days dependant on weather.

7 Gunfleet Sands – Notice to Mariners

7.1 Lighting and Marking Status

The lighting and/ or navigational warning systems are currently operational. No planned outages.

7.2 Other Operations

7.2.1 Transition Piece Maintenance.

Transition Piece maintenance will be undertaken on all WTG's on GFS01 + GFS02 from the 11th May for a provisional 4 months. Sequence of locations and dates are unavailable as works will be weather dependant and coordinated to ensure no conflict with routine maintenance operations.

We request Mariners observe a safe distance from the affected turbine(s) while works are being carried out.

The CTV's "Discovery and Endeavour" will act as Guard Vessels during the maintenance programme with the vessel broadcasting the Turbine ID, establishment/cancellation of the safety zones and seeking contact with marine traffic approaching or nearing the areas on VHF Channel 16 and 12.

8 Hornsea One – Notice to Mariners

8.1 Lighting and Marking Status

The lighting and/ or navigational warning systems are currently operational. No planned outages.

8.2 Other Operations

8.2.1 Nearshore Export Cable – Potential exposure.

A potential nearshore Export Cable exposure has been identified (as shown in Figure 4)

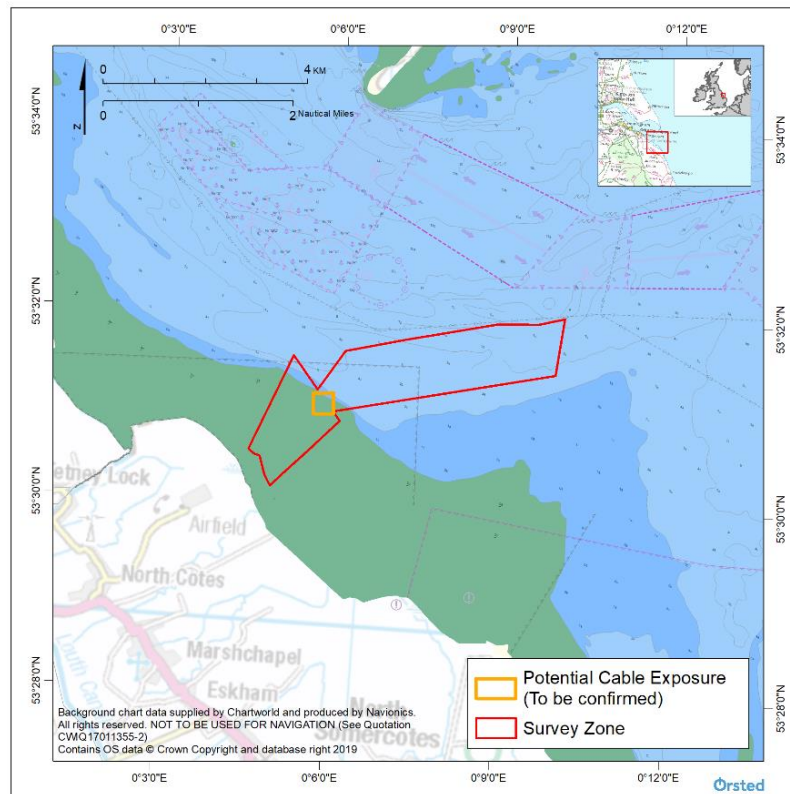

Mariners are advised that Hornsea Project are reviewing the geophysical survey data from along the nearshore part of offshore export cable corridor.

Work is planned to re-bury the exposed cable via CFE between the 1st September and 10th September 2020 by Coastal Challenger. This will be done over 2 passes between these dates.

8.2.2 Structural Inspections Below Water

Structural inspections will be taking place on Hornsea 1 windfarm on or around the 14th August for approximately 2 days.

Mariners are requested to remain a distance of 500m from HBC Achiever when it is observed undertaking diving work in HOW01, during this period divers will be in the water around the vessel. The proposed end date of this work is 15th August

8.2.3 Un-manned Service Vessel (USV) Survey

A survey of a USV will take place at HOW01 from the 1st – 4th September. It is operational 24hrs a day. The USV is 4.5m long and driven remotely by a USV pilot. It will be mobilized with GPS, MultiBeam EchoSounder (MBES) and Parametric EchoSounder (PES) for survey, as well as AIS, thermal imaging and light cameras, active radar reflector, and lights, for navigation.

The survey will contain the following:

1. Box in at WTG D03 and C03, and B02 – (MBES to capture scour protection and surrounding seabed), 125m radius
2. MBES survey, and PES verification cross lines at: D03 – C03
3. MBES survey, and PES verification cross line at: C03 – B02

8.2.4 Array cable remedial work

Remedial work will take place on HOW01 String 7 between locations Z13-F03 & F03-E02 shown on figure 1 below. Work is due to commence on 27th August 2020 until the end of September 2020.

Mariners must observe an approved safety zone of 500m whenever The Livingstone is next to an OSS or WTG. A minimum separation distance of 500m is also requested when the vessel is observed manoeuvring into position.
