NOTICE TO MARINERS 056/2020

Mariners are advised that commencing on Monday 7th September dredging will commence in the swinging hole opposite the lock entrance. This work will be carried out by excavators working from the temporary ramp that has already been built. Further temporary ramps will be built as the project progresses to allow for the complete swinging hole to be cleared in this fashion. The outer end of the ramps are marked with unlit stakes and topmarks.

No work should extend into the main channel but mariners should be aware of the activity and expect to see moving traffic and flashing lights at certain times.
