

Notice to Mariners – Hornsea Project Two

Notice of Intertidal Works Update – Completion of 2020 Works - Issued 01/10/2020

1. INTRODUCTION

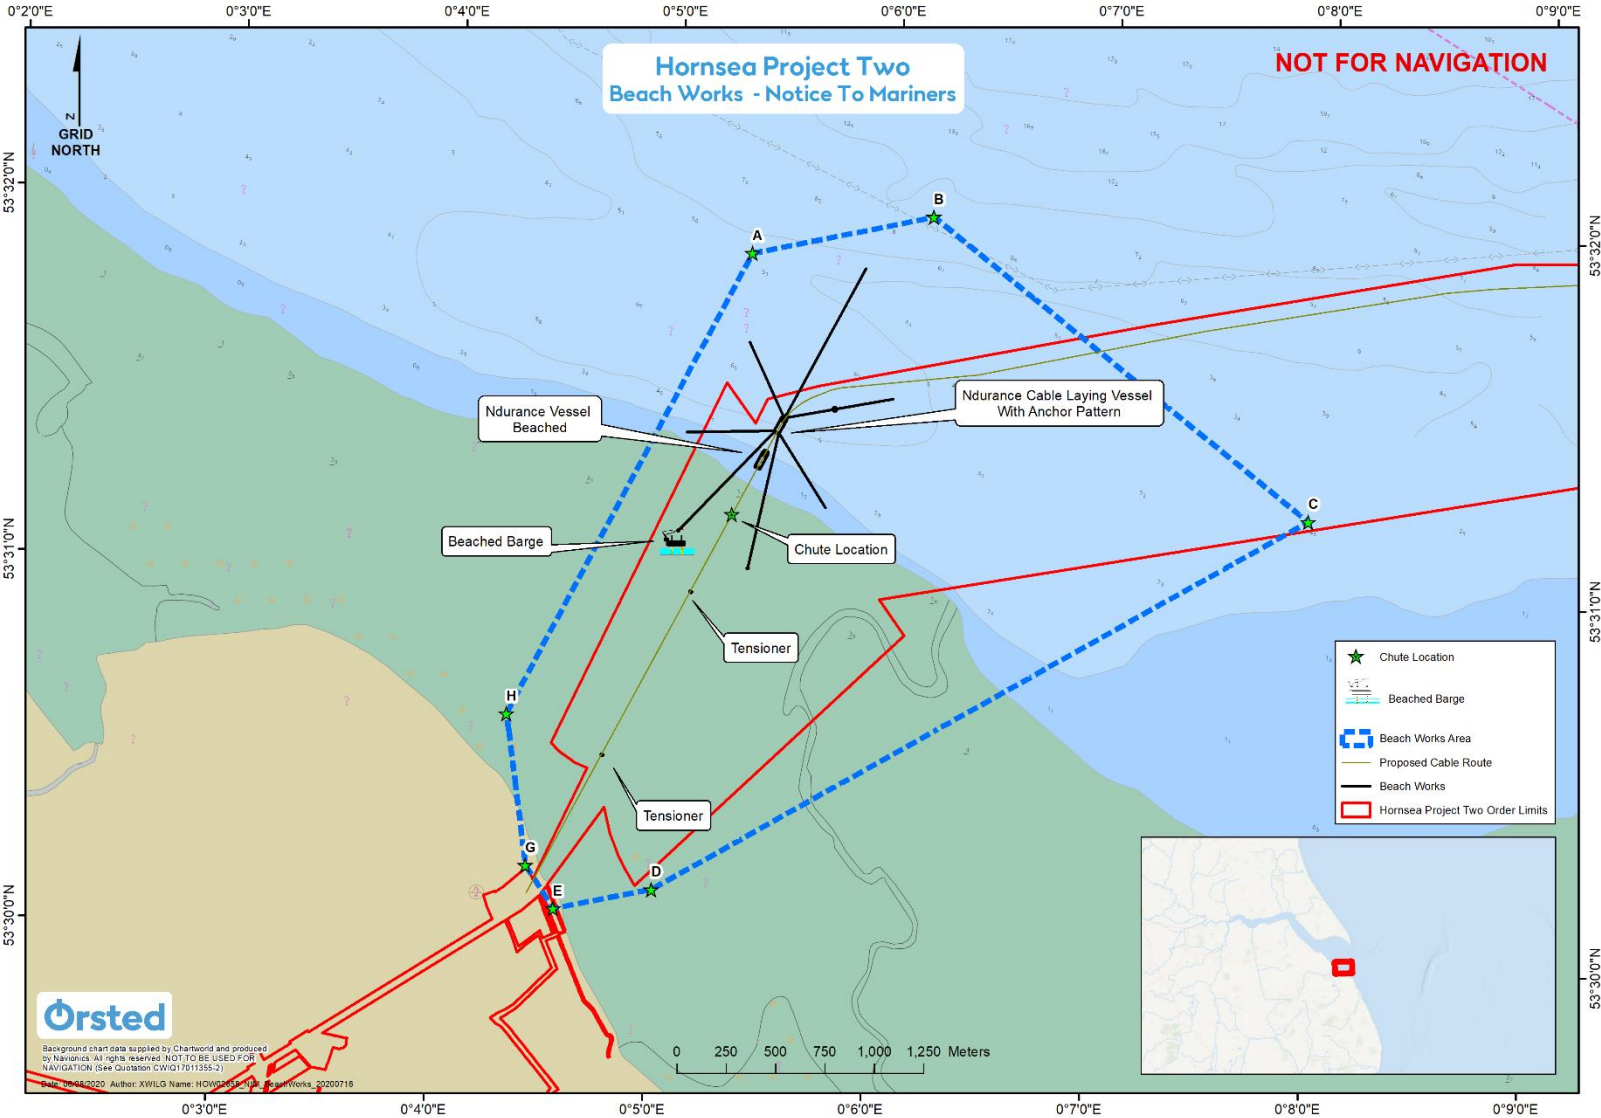

Mariners are advised that Ørsted have completed export cable installation works in the intertidal area in 2020 as part of the ongoing construction of the Hornsea Project Two Offshore Wind Farm. Intertidal export cable installation works are expected to re-commence on or after 1st April 2021 prior to which this Notice will be updated.

2. AREA OF OPERATIONS

Activities being carried out within the Hornsea Project Two Offshore Wind Farm Order Limits (intertidal area) as shown in Figure 1 have been completed for 2020. Mariners are advised that MaxSea and Olex plotter files of the proposed works area can be provided by the Project's Commercial Fisheries Advisors at Brown and May Marine Limited and the Project's onshore fisheries liaison. Contact details are provided in Section 5 of this Notice.

Note that these works will be carried out alongside ongoing offshore seabed preparation and cable installation activities within the export cable corridor and other preparation and construction activities within the Hornsea Project Two wind farm array.

3. PROPOSED ACTIVITIES

3.1 Landfall Preparation and Cable Installation

Please be advised that export cable installation activities within the intertidal area have been completed at the landfall at Horseshoe Point, Lincolnshire for 2020. Works will then re-commence on or after 1st April 2021 until 30th September 2021. Works will be continual and intermittent throughout these periods.

It should be noted that export cable seabed preparation and installation seaward of mean low water springs is ongoing until end of 2021.

3.2 Safety

It is requested that anybody having knowledge of any potential objects submerged or moored on the seabed within the survey area that could be damaged or form a hazard to the vessel and its equipment advises the Project's Fishing Industry Liaison of their position and nature. .

4. IMMEDIATE CONTACTS
