Dear Owners, Ships Agents, Masters, Pilots and Fishermen,

### Re: Galloper Windfarm, RWE - NTM: GWFL-O&M 2021-08 ROV Subsea Inspections

Please be advised that Galloper Windfarm will be carrying out further subsea inspections in the North field on 6 locations as part of the preparation for remedial works required on the defect Cable Protection System (CPS) NtM GWFL-O&M 2021-02. The inspection work will be carried out by Atlantas Marine operating from an Offshore Turbine Services CTV.

Operations will be during daylight hours with the 'Admiral P' sailing to the field from Galloper O&M base in Harwich International Port. Mariners are requested to remain a distance of 50m away from the vessel due to an ROV being launched from the aft starboard side and flown forward by the ROV pilot.

Work Scope	ROV Subsea Inspections
Start Date	12 July 2021
Duration	4 days

Asset Name	LAT_DM_WGS84	LON_DM_WGS84
GN-H1D	51° 59,232' N	2° 5,876' E
GN-H2D	51° 58,763' N	2° 5,794' E
GN-G4E	51° 57,086' N	2° 4,548' E
GN-H5E	51° 56,446' N	2° 5,384' E
GN-C2A	51° 59,142' N	2° 0,165' E
GN-D6M	51° 54,448' N	2° 0,286' E

Vessel	Admiral P
Call Sign	2FVD7
MMSI	235094496
Length / Beam (m)	18 / 6
Company	Offshore Turbine Services Ltd
