## Notice to Mariners - Hornsea Project Two

## Notice of Substation Topsides Installation - Commencement of Installation 13/10/21

## 1. SUMMARY OF OPERATIONS

| Activity update: | Commencement of installation of topsides |
| :--- | :--- |
| General activity: | Offshore Substation (OSS) \& Reactive Compensation Station (RCS) installation |
| Location: | Hornsea Project Two area (as shown in Figure 2) |
| Contractor: | Heerema Marine Contractors (HMC) |
| Updated vessels: | (further details provided in Section 5) |
| Proposed start date: | On or after $20^{\text {th }}$ October 2021 |
| Proposed end date: | On or around $15^{\text {th }}$ November 2021 |
| Notes: | These works will be carried out alongside ongoing survey and construction <br> activities for Hornsea Project Two. |

Mariners are advised that MaxSea and Olex plotter files of the proposed works area can be provided by the Project's Commercial Fisheries Advisors at Brown and May Marine Limited and the Project's onshore fisheries liaison. Contact details are provided in Section 5 of this Notice.

## 2. HAZARDS \& SAFETY

Note that the vessels will have limited manoeuvrability and it is requested that all vessels operating near the vessels, including the HTV \& Installation Vessel undertaking the topside transfer outside the Project's Order Limits (proposed location shown in Figure 2), maintain a safe distance (at least 500 m ) and pass all vessels at minimum speed.

Rolling' 500 m Safety Zones (SZs) will be in place around each wind farm structure when a construction vessel is present. When a construction vessel is not present, 50 m SZs are in place around any wind farm structure that is either partially constructed but not yet commissioned.

It is requested that anybody having knowledge of any potential objects submerged or moored on the seabed within the works area that could be damaged or form a hazard to the vessel and its equipment advises the Project's Fishing Industry Liaison of their position and nature. The Project has also requested the clearance of static fishing gear within the boundary shown in Figure 1 and described in Section 6 of this Notice. When works commence a listening watch will be maintained on VHF Channel 12 and 16 when within the appropriate port authority area and will actively transmit an AIS signal.
