1 Introduction

Ørsted is an offshore wind farm owner and operator with ten operational wind farms in UK waters. Of these ten, the following offshore wind farms are located off the East Coast of England:

- Gunfleet Sands
- Westermost Rough
- Race Bank
- Lincs
- Hornsea One

The purpose of this monthly Notice to Mariners (NtM) is to ensure that mariners are aware of any non-routine operations across the East Coast assets that could pose a risk to other sea users. Safety is paramount to Ørsted and this notice should assist in ensuring that both mariners and the Ørsted operational team can operate safely offshore. This NtM will provide:

- A regular, clear and consistent overview of non-routine operations
- Updates relating to lighting and marking
- Key contact details
- Access to detailed site information and figures
- Clarity on when Safety Zones and recommended safe separation distances are in force or requested

This Notice to Mariners will not provide:

- Information relating to routine maintenance carried out by Crew Transfer Vessels (CTV) or Service Operation Vessels (SOV).
- Any information relating to export cables
- Any information relating to offshore wind farms currently in development, construction or not operated by Ørsted

Subsea Cables

Subsea cables are installed across each offshore wind farm and are marked on the KIS ORCA charts referenced in Section 1.2. Please note the following advice from NP 100 The Mariners Handbook "Every care

should be taken to avoid anchoring, trawling, fishing, dredging, drilling, or carrying out any other activity in the vicinity of cables which might damage them.” This warning is repeated on all admiralty charts.

Wind Farm Positional Data

KIS ORCA Awareness Charts (including the layout and coordinates) and Fishing Plotter Files of the offshore assets referenced in this NtM can be found via the KIS ORCA website: <https://kis-orca.org/downloads/> Should mariners require further information or any data in a format that can be used in a plotter or other device, please contact the Company Fisheries Liaison Officer, listed in Section 2 below.

2 Key Contacts

For further information on any of the activities listed within this notice, please use the contact details listed below.

Site	Ørsted Mailbox/ Offshore Coordination	Fisheries Industry Representative
Race Bank	Phone: 07826 943808 Email: rowoffshorec@orsted.co.uk	Ady Woods Phone: 07468 898948 Email: firwoods@hotmail.com

The Ørsted Company Fisheries Liaison Officer can be contacted using the details below:

Courtney French
Email: CONFR@Orsted.co.uk

3 Notice to Mariners Summary:

Site	Lighting and Marking Status	Survey	Jack-Up Vessel	Other Works
Race Bank	OK	None	None	None
Westermost Rough	A01 Fog signal	None	None	None
Lincs	OK	None	None	HSS Bearing
Gunfleet Sands	OK	None	None	Above water inspections
Hornsea One	H27 Fog Signal	None	None	A03 Generator Exchange ° *

- * Formal 500m safety zone in place
- ° Licensable activity
- ** 500m safety distance requested
- *** 200m safety distance requested
- **** 250m safety distance requested

Status of lighting & marking is correct at time of issue; any changes will be communicated through an updated version being issued.

4 Race Bank – Notice to Mariners

4.1 Lighting and Marking Status

The lighting and/ or navigational warning systems are currently operational. No planned outages.

4.2 Other Operations

Non planned

5 Westermost Rough – Notice to Mariners

5.1 Lighting and Marking Status

A01 fog signal is constantly sounding, the issue is being investigated and this NTM will be updated when the problem has been fixed.

5.2 Other Operations

5.1.1 Blade LEP campaign

From the 1st of April the NSL Discovery will be working on site, initially for familiarisation and technician training, Then from the 1st May the SOV Island Condor will be on site to conduct the blade repairs until the end of September.

When the technicians are deployed via the ropes an exclusion zone of 100m will be required.

All 35 turbines will be visited. There will be a liaison officer on board the Island Condor who will communicate a 3-5 day lookahead of planned locations throughout the project.

6 Lincs – Notice to Mariners

6.1 Lighting and Marking Status

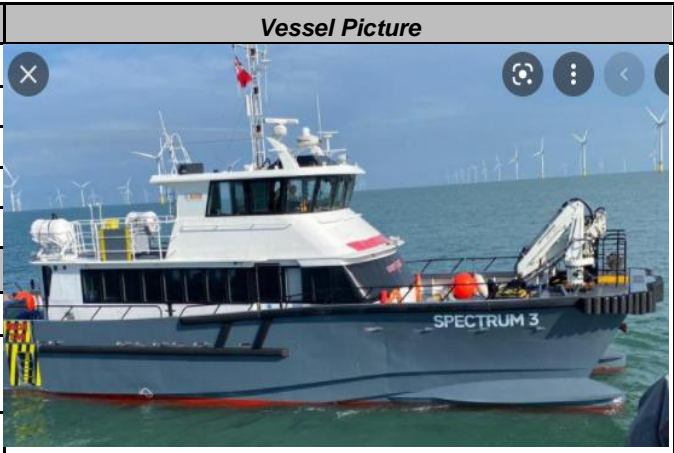

The lighting and/ or navigational warning systems are currently operational. No planned outages.

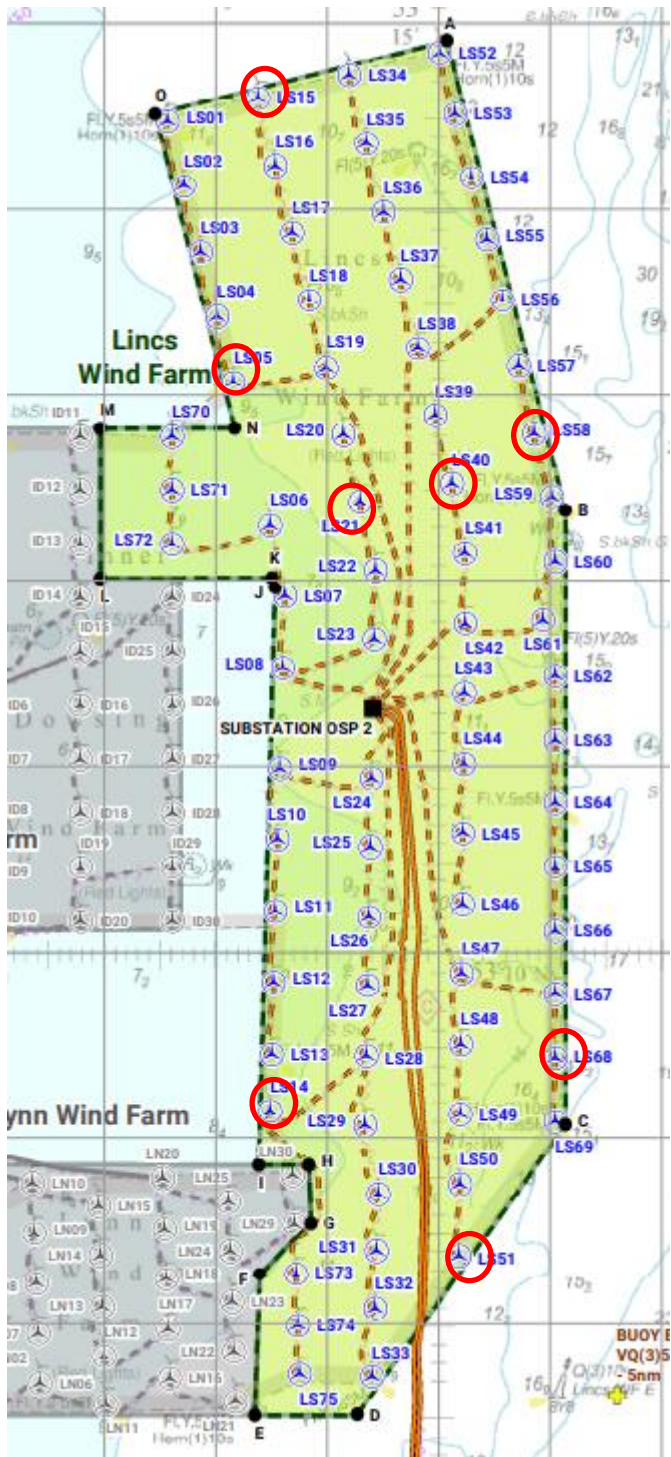

6.2 Other Operations

6.2.1 High Speed Bearing Exchange

On the 18th March we will be carrying out some rectification work on several locations identified below, we anticipate completion on mid-April. The Spectrum 3 CTV will be supporting this scope.

8 Hornsea One – Notice to Mariners

8.1 Lighting and Marking Status

H27 Foghorn is currently inoperative.

8.2 Other Operations

8.2.1 G25 Switchgear Replacement

Planned to start 10th April 2022 for a duration of 14 Days works will commence to replace Switchgear on G25 at Hornsea 1. They will also complete some works on Offshore Substation HA Z11. This will be primarily completed by Service Operation Vessel: Bibby Wavemaster1 shown below. Mariners are requested to observe a 250m safety exclusion zone around Bibby Wavemaster1
