

NOTICE TO MARINERS

King's Lynn Dock opening limits

UTC BST

All mariners, owners and agents are advised that with immediate effect King's Lynn dock will operate following parameters to preserve the safe water level in the dock.

Following a Spring Tide, the dock will not be opened to transit vessels when the predicted Height of tide is 5.20m or less.

Masters and agents should seek the Divisional Harbour Master advise and clearance if a vessel wants to sail on a predicted tide of less than 5.50m to ensure that all factors have been taken into considerations, which will include any tidal surge predictions during the high-water period.

Divisional Harbour Master East Anglia
