

Notice to Mariners – 01st December 2022

Metocean Survey 2022 / 2023

Outer Dowsing Offshore Wind (a joint venture between TotalEnergies and Corio Generation) are conducting a 12 month offshore Metocean survey between 17th April 2022 and 17th April 2023. A surface buoy and a seabed frame have been moored offshore. Please allow a safe distance from the buoy and seabed frame.

Company: Outer Dowsing Offshore Wind
Contractor : Fugro GB Marine Limited
Earliest start date: 17th April 2022
Latest finish date: 17th April 2023

<i>(Datum : WGS84)</i>		
Point	Latitude	Longitude
Metocean Buoy	53° 35.23' N	01° 16.95' E
Seabed Frame	53° 37.47' N	01° 24.90' E

A vessel will be conducting a service & maintenance visit, this was partially completed between the 25th and 26th November and a vessel will be going out to the buoy to complete this operation over approximately two days around the 10th December (delay due to weather). Please allow a safe distance from the vessel.

Service vessel : Arctic Hunter *tbc*
Survey vessel call sign: OUWK2
