Weekly Notice of Operations (WNoO) DOGGER BANK WIND FARM **Dogger Bank A Offshore Windfarm Construction Operations**

Issue Date: 20th February 2023

LF500013-CST-DOG-NOT-0006 Weekly Notice of Operations – Rev 049

Work Planned for the Period 20.02.2023 to 26.02.2023

Offshore Construction of the Dogger Bank A Offshore Wind Farm commenced on the 18th of March 2022.

This notice will be updated weekly, giving information on the progress and resources involved in the offshore project. The intention is to give an overview of activities and vessels involved. Should anyone have questions regarding the operations, we kindly ask you to put them forward well in advance.

Dogger Bank Offshore Wind Project is a development project within the Renewables offshore wind sector for the three owners; SSE, Equinor and ENI. Dogger Bank A is the first stage of development in the Dogger Bank Zone in the United Kingdom. It will have a consented capacity of up to 1.2 GW.

1. **Contact Details for Marine Coordination**

The following contact can provide more information if required. Please note that specific queries can also be addressed to the relevant vessel or shore-based representatives.

Duty Marine Coordinator Telephone Number	+44 (0) 7586 332078
Emergency Contact (24/7)	+44 (0) 7586 332078
Email for Marine Coordinator	gm_dbmcc@equinor.com
Address	Dogger Bank Construction office, Atlantic House, Port of Tyne, South Shields NE34 0AB

2. **Ongoing Operations**

2.1 **Foundation Installation**

The Offshore installation vessel, **HLV Seaway Strashnov**, will install monopile foundations, within the Dogger Bank A construction area.

The works commenced in October 2022. The HLV Seaway Strashnov has now left the construction site for dry docking. The vessel is due back in Q1 2023, continuing until approximately Q3 2023.

Installed foundation locations are presented in section 3 below.

2.2 Construction Support Activities

The Offshore Construction Support Vessel, VOS Start, will continue with ongoing construction support activities within Dogger Bank A construction site.

The works will be performed in a single campaign, commencing on the 6th November 2022 and continuing until approximately 30th September 2023. The works will be continuous, 24 hours a day.

During operations, the **VOS Start** will be restricted in its ability to manoeuvre as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972) and will display the appropriate day shapes and lights. The vessel will also transmit an Automatic Identification System (AIS) message.

Dogger Bank A Offshore Windfarm Construction Operations

Issue Date: 20th February 2023

LF500013-CST-DOG-NOT-0006 Weekly Notice of Operations – Rev 049

It is requested that all vessels maintain a minimum of 500m separation distance from the vessel and pass at reduced speed. Fishing gear or other equipment with seabed intervention should not be deployed when approaching the working area.

2.3 **Dogger Bank B UXO Clearance Campaign**

The Offshore Supply Vessel, KAMARA, will perform Unexploded Ordnance (UXO) clearance/detonation operations within Dogger Bank B Array construction area in a single campaign commencing on the 12th February 2023 and continuing until approximately 31st March 2023.

The works will be continuous, 24 hours a day though UXO detonation shall only take place during daylight hours. Charts of the DBB Array areas including locations of the 6 (six) confirmed UXO items are provided below.

The operations consist of the detonation of confirmed UXO items by means of a work class ROV (WROV).

The Guard Vessel **FURORE-G** will be in attendance throughout the operation.

During operations, the KAMARA will be restricted in its ability to manoeuvre as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972) and will display the appropriate day shapes and lights. The vessel will also transmit an Automatic Identification System (AIS) message.

It is requested that all vessels maintain a minimum of 1.5 Nm separation distance from the Offshore Supply Vessel and pass at reduced speed. Fishing gear or other equipment with seabed intervention should not be deployed when approaching the working corridor.

3. **Installation progress**

The table below presents the coordinates of the DBA WTG locations and gives an update on the progress of installation of various stages of construction. All locations referenced to **WGS 84**

4. **General Safety Advice**

All vessels engaged in construction activities will exhibit the appropriate lights and shapes, defined by the International Regulations for Preventing Collisions at Sea 1972, relative to their operations. Vessels will also transmit an Automatic Identification System (AIS) message.

Mariners are reminded to navigate with caution and keep continuous watch on VHF Ch. 70 / 16 when navigating the area.

LF500013-CST-DOG-NOT-0006 Weekly Notice of Operations - Rev 049

5. Safety Zones within the Dogger Bank Offshore Windfarm Construction Area

The Secretary of State for Business, Energy and Industrial Strategy (BEIS) has approved the use of safety zones under the Energy Act 2004 for the installation of wind turbines and offshore transformer module foundations/substructures within the Dogger Bank Offshore Windfarm.

The Secretary of State has declared safety zones under the following terms:

During Construction

500 metres radius around each wind turbine, offshore transformer module and/or their substructures and foundations comprising the Dogger Bank Offshore Wind Farm whilst work is being performed as indicated by the presence of construction vessels.

(It is noted that the 500 metre safety zones will roll with the installation activity with no more than two construction vessels working at any one time. Vessels are advised that anchors associated with the construction vessels may extend outside of the 500 metre safety zone.)

50 metres radius around each wind turbine, offshore transformer module and/or their substructure and foundations installed but waiting to be commissioned as part of the Dogger Bank Offshore Wind Farm.

Positions of foundations installed will be published in the current Weekly Notice of Operations. Only vessels associated with the Dogger Bank Offshore Wind Farm construction may enter statutory safety zones.

The guard vessel and Marine Coordination centre will be responsible for monitoring and policing the safety zones; and can be contacted directly for advice. The guard vessel will be on site 24/7 whilst safety zones are in place.

Further information on the application of safety zones can be obtained from the Marine Coordinator. Users are advised to keep clear of construction activities, including safety zones, within the Dogger Bank Offshore Windfarm construction area in line with Marine Guidance Note (MGN) 372.

ALL VESSELS ARE REQUESTED to give all construction and support vessels a wide berth.

MARINERS ARE REMINDED to navigate with caution and keep continued watch on VHF Ch. 70 / 16 when navigating the area

6. **Fisheries Liaison**

Fisheries liaison associated with the activity will be co-ordinated by Brown and May Marine Ltd. For any commercial fishery queries please contact:

Alex Winrow-Giffin, Brown & May Marine Ltd Alex@brownmay.com

Tel: 01379 870181 Mob: 07760 160039
