

NOTICE TO MARINERS

DOGGER BANK OFFSHORE WIND FARM

DATE OF ISSUE:	26/07/2023
NOTICE TO MARINER NUMBER	LF600013-ESI-DOG-NOT-0007

Dogger Bank B Export Cable Burial Operations Temporary Marker Buoy

LOCATION DESCRIPTION		Dogger Bank B Offshore Windfarm, Export Cable Corridor
COORDINATES	DBB Export Cable Corridor	Temporary Marker Buoy 54° 00.487'N 00° 11.608'W
START DATE/TIME		28/29 th of July 2023
END DATE/TIME		Until navigation charts have been updated to reflect the change in water depth due to rock placement

Description of Hazard/Operation

Dogger Bank Offshore Windfarm is being developed in 3 phases – Dogger Bank A (DBA), Dogger Bank B (DBB) and Dogger Bank C (DBC), located off the North-east coast of England in the Southern North Sea.

Rock placement works are currently ongoing for the DBB export cable corridor (please see NtM LF600013-ESI-DOG-NOT-0006). Rock placement is required at KP1.557 to KP1.606 (approx. 49m in length), this will reduce the water depth at that location by up to 20%. A temporary marker buoy will remain in position to the north of the rock berm to mark the area until navigational charting has been updated to reflect the as-built rock berm.

The marker buoy vessel, **Bright Blue**, will transit to the work site and deploy the temporary marker buoy at the location set out in Table 1. The total duration of this activity will be one working day. Figure 2 below shows the type of marker buoy that will be installed.

It is requested that all vessels give **Bright Blue** a wide berth and pass at reduced speed when the vessel is engaged in deployment activities.

All vessels will monitor VHF CH16 and VHF DSC Ch70 continuously throughout.
