DOGGER BANK OFFSHORE WIND FARM

DATE OF ISSUE:	15/09/2023
NOTICE TO MARINER NUMBER	LF600013-MIP-DOG-NOT-0012

Dogger Bank B Foundation Installation Campaign

LOCATION DESCRIPTION		Dogger Bank B Offshore Windfarm
COORDINATES WGS 84	DBB OWF	See Table 1 below
START DATE/TIME		24/09/2023
END DATE/TIME		Q2 2024

Description of Hazard/Operation

The Offshore installation vessel, **HLV Seaway Strashnov**, will install mono-pile foundations in the Dogger Bank B offshore windfarm construction area.

The works will commence on the 24th of September 2023, continuing until approximately Q2 2024. The works will be continuous 24 hours a day. A chart of the DBB construction area and the foundation locations are provided below. A running list of the next locations to be installed and mono-piled locations are presented in the Weekly Notice of Operations.

The installed monopiles will be marked with temporary lighting with the following characteristics:

- Flashing (Fl) Yellow (Y) 2.5 seconds (s)
- IALA Availability Category 2 (not less than 99.0%)
- 360° visibility – up to two lights per structure may be used to achieve this
- At least 2 nm range.

During operations, the **HLV Seaway Strashnov** will be restricted in ability to manoeuvre as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972) and will display the appropriate day shapes and lights. The vessels will also transmit an Automatic Identification System (AIS) message.

During operations, a Statutory Safety zone of 500m radius will be in place around the **HLV Seaway Strashnov**. The safety zones will be monitored by a guard vessel. The primary response will be to warn passing traffic of the ongoing works and any active safety zones, and to alert any vessels where an infringement may occur or has occurred.
