## DOGGER BANK OFFSHORE WIND FARM

DATE OF ISSUE:	31/07/2023
NOTICE TO MARINER NUMBER	LF700013-CST-DOG-NOT-0069

### Dogger Bank C Export Cable Marine Hazard and Archaeological Exclusion Zone

LOCATION DESCRIPTION	Dogger Bank C Offshore Windfarm, Export Cable Corridor	
COORDINATES	DBC Export Cable Corridor	Marine Hazard 54° 44.74' N 000 17.62'E
START DATE/TIME	31/07/2023	
END DATE/TIME	Until navigation charts have been updated	

### Description of Hazard/Operation

Dogger Bank Offshore Windfarm is being developed in 3 phases – Dogger Bank A (DBA), Dogger Bank B (DBB) and Dogger Bank C (DBC), located off the North-east coast of England in the Southern North Sea.

A new marine hazard has been identified during UXO identification and investigation operations in the Dogger Bank C export cable corridor. The marine hazard is located on the seabed in the near vicinity of the intended route of the DBC export cable and is a group of metallic objects associated with military (probably WW2) activity in nature.

A 50 metre Archaeological Exclusion Zone (AEZ) has been implemented under the terms of the Written Scheme of Investigation (WSI) produced and agreed with Historic England as per Licence condition in accordance with 16(g) of dML 1 and Condition 13(g) of dML 3.

Fishing vessels and other vessels engaged in the deploying of sub-surface and bottom interacting gear should avoid the area.
