### Dogger Bank C: Trenching Trial Operations

LOCATION DESCRIPTION	Dogger Bank C Offshore Windfarm, Export Cable Corridor		
COORDINATES	DBC Export Cable Corridor	See Table 1 below	
START DATE/TIME	28/01/2024		
END DATE/TIME	11/02/2024		

### Description of Hazard/Operation

The cable laying vessel, **NKT Victoria**, will perform trenching trial operations between KP103 – KP105 and KP132.500 - KP137.450 approximately.

The trenching trials will commence on the 28 January for approx. 2 weeks. The work will be continuous, 24 hours a day. Coordinates and chart of the location are provided below.

At each trial location, the proposed sequence of activities includes:

- Pre-Lay Survey of selected site;
- Demonstration of cable burial;
- As-Buried Survey; and
- Recover cable back to NKT Victoria.

All equipment used for the trials will be removed upon completion of the test.

During operations the **NKT Victoria** will be restricted in its ability to manoeuvre as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972) and will display the appropriate day shapes and lights. The vessel will also transmit an Automatic Identification System (AIS) message.

It is requested that all vessels maintain a minimum of 1.5Nm separation distance from NKT Victoria and pass at reduced speed. Fishing gear or other equipment with seabed intervention should not be deployed when approaching the working area.

An Offshore Fisheries Liaison Officer will be onboard NKT Victoria to provide support and coordination to fishing vessels, please see contact details below.
