#### 1. Contact Details for Marine Coordination

The following contact can provide more information if required. Please note that specific queries can also be addressed to the relevant vessel or shore-based representatives.

|                                          |                                                                                                                             |
|------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Duty Marine Coordinator Telephone Number | +44 (0) 7586 332078                                                                                                         |
| Emergency Contact (24/7)                 | +44 (0) 7586 332078                                                                                                         |
| Email for Marine Coordinator             | <a href="mailto:gm_dbmcc@equinor.com">gm_dbmcc@equinor.com</a>                                                              |
| Address                                  | Dogger Bank MCC, Dogger Bank Operations & Maintenance Base, Enterprise Way, East Side, Port of Tyne, South Shields NE33 5SW |

#### 2. Ongoing Operations

##### 2.1 Construction Support Activities

The Offshore Construction Support Vessels **Boreas Enabler**, **IWS Skywalker**, **IWS Starwalker**, **Grampian Derwent** and **Grampian Tyne** will continue with ongoing construction support activities within Dogger Bank A construction site.

During operations, all vessels will be restricted in their ability to manoeuvre as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972) and will display the appropriate day shapes and lights. The vessels will also transmit an Automatic Identification System (AIS) message.

It is requested that all vessels maintain a minimum of 500m separation distance from the working vessels and pass at reduced speed. Fishing gear or other equipment with seabed intervention should not be deployed when approaching the working area.

##### 2.2 Wind Turbine Generator (WTG) Installation

The Jack-up WTG Installation Vessel, **Voltaire**, will continue installing wind turbine generators (WTG) within the Dogger Bank A construction area.

The works commenced in July 2023, and will be continuous, 24 hours a day, for the duration of the WTG installations. A running list of the completed WTG installations and the next locations to be installed is presented in the Installation progress table below. The first of the 95 WTGs was installed on 29<sup>th</sup> August 2023.

During operations, the **Voltaire** will be restricted in its ability to manoeuvre as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972) and will display the appropriate day shapes and lights. The vessel will also transmit an Automatic Identification System (AIS) message.

### Construction Operations

Issue Date: 14<sup>th</sup> July 2025

LF500013-CST-DOG-NOT-0006 Weekly Notice of Operations – Rev 175

#### 2.3 Inter Array Cable Replacement

The Cable Lay Vessel (CLV) **VIKING NEPTUN** will replace a single inter array cable in the DBA Construction Site. Works will commence on 12<sup>th</sup> of July 2025. The vessel will further be assisted by the Service Operation Vessel (SOV) **NORSIDE CETUS** for the deployment of cable pull in teams. All works will be continuous, 24 hours a day. Charts of the DBA array area are provided below.

The cable lay vessel will deploy the inter array cable onto the seabed through her dedicated deck spread. The cable will remain exposed on the seabed until trenching operations commence in August/September 2025.

During operations, the **VIKING NEPTUN** and **NORSIDE CETUS** will be restricted in their ability to manoeuvre as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972) and will display the appropriate day shapes and lights. The vessels will also transmit an Automatic Identification System (AIS) message.

### 3. Installation progress

3.1 The table below presents the coordinates of the DBA WTG locations and gives an update on the progress of installation of various stages of construction. All locations referenced to WGS 84

| ID  | Structure | Latitude     | Longitude     | Monopile installed | TP installed | WTG Installed |
|-----|-----------|--------------|---------------|--------------------|--------------|---------------|
| A06 | WTG       | 54° 44.43' N | 001° 44.58' E | Y                  | Y            | Y             |

# Weekly Notice of Operations (WNoO)

## Dogger Bank A Offshore Windfarm

### Construction Operations

**DOGGER BANK**  
**WIND FARM**

**Issue Date: 14<sup>th</sup> July 2025**

**LF500013-CST-DOG-NOT-0006 Weekly Notice of Operations – Rev 175**

---

#### **4. General Safety Advice**

All vessels engaged in construction activities will exhibit the appropriate lights and shapes, defined by the International Regulations for Preventing Collisions at Sea 1972, relative to their operations. Vessels will also transmit an Automatic Identification System (AIS) message. Mariners are reminded to navigate with caution and keep continuous watch on VHF Ch. 70 / 16 when navigating the area.

#### **5. Safety Zones within the Dogger Bank Offshore Windfarm Construction Area**

The Secretary of State for Business, Energy and Industrial Strategy (BEIS) has approved the use of safety zones under the Energy Act 2004 for the installation of wind turbines and offshore transformer module foundations/substructures within the Dogger Bank Offshore Windfarm.

The Secretary of State has declared safety zones under the following terms:

During Construction

- 500 metres radius around each wind turbine, offshore transformer module and/or their substructures and foundations comprising the Dogger Bank Offshore Wind Farm whilst work is being performed as indicated by the presence of construction vessels.  
(It is noted that the 500 metre safety zones will roll with the installation activity with no more than two construction vessels working at any one time. Vessels are advised that anchors associated with the construction vessels may extend outside of the 500 metre safety zone.)
- 50 metres radius around each wind turbine, offshore transformer module and/or their substructure and foundations installed but waiting to be commissioned as part of the Dogger Bank Offshore Wind Farm.

Positions of foundations installed will be published in the current Weekly Notice of Operations. Only vessels associated with the Dogger Bank Offshore Wind Farm construction may enter statutory safety zones.

The guard vessel and Marine Coordination centre will be responsible for monitoring and policing the safety zones; and can be contacted directly for advice. The guard vessel will be on site 24/7 whilst safety zones are in place.

Further information on the application of safety zones can be obtained from the Marine Coordinator. Users are advised to keep clear of construction activities, including safety zones, within the Dogger Bank Offshore Windfarm construction area in line with Marine Guidance Note (MGN) 372.

ALL VESSELS ARE REQUESTED to give all construction and support vessels a wide berth.

#### **6. Fisheries Liaison**

Fisheries liaison associated with the activity will be co-ordinated by Brown and May Marine Ltd. For any commercial fishery queries please contact:
