

# Weekly Notice of Operations (WNoO)

## Dogger Bank B Offshore Windfarm

### Construction Operations

Issue Date: 16<sup>th</sup> February 2026

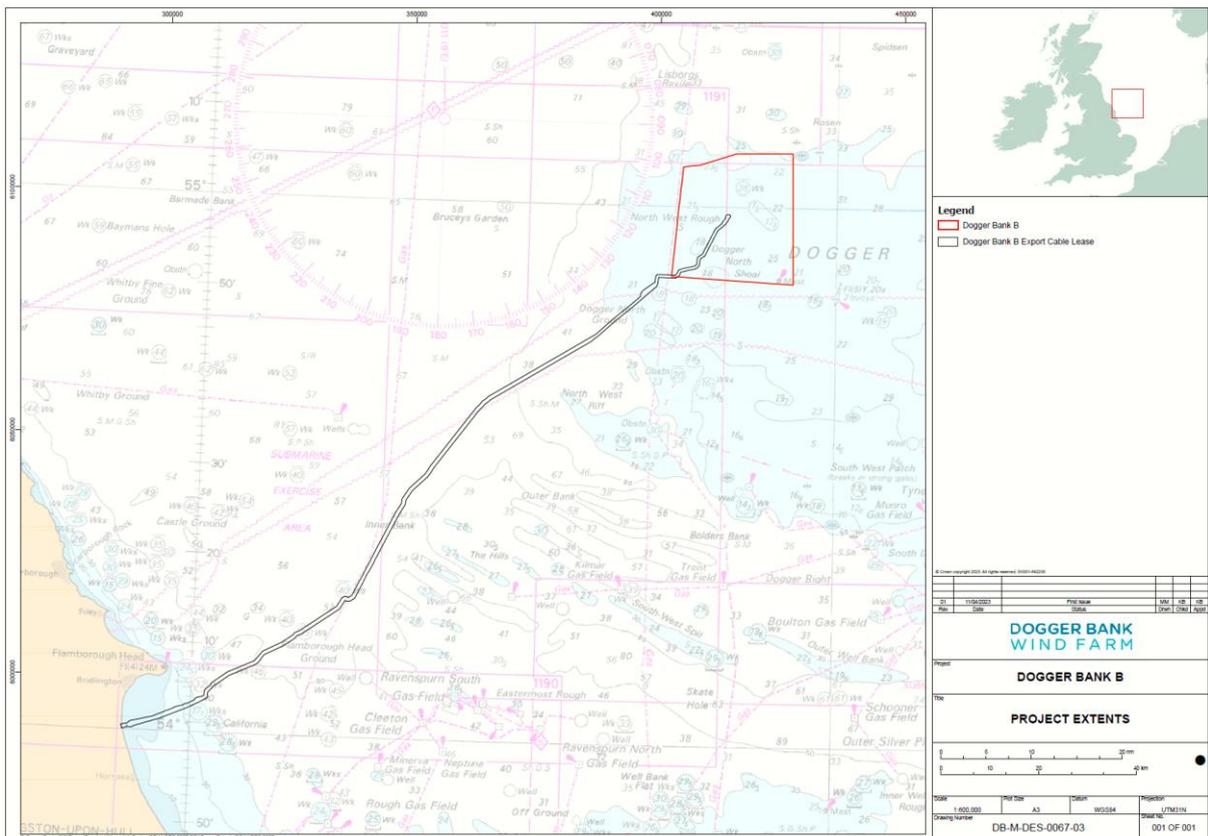

LF600013-CST-DOG-NOT-0002 Weekly Notice of Operations – Rev 150

Work Planned for the Period 16.02.2026 to 22.02.2026

Offshore Construction of the Dogger Bank B Offshore Wind Farm commenced on the 25<sup>th</sup> of April 2023 with the installation of the OSP jacket foundation.

This notice will be updated weekly, giving information on the progress and resources involved in the offshore project. The intention is to give an overview of activities and vessels involved. Should anyone have questions regarding the operations, we kindly ask you to put them forward well in advance.

Dogger Bank Offshore Wind Project is a development project within the Renewables offshore wind sector for the three owners; SSE, Equinor and Vårgrønn. Dogger Bank B is the second stage of development in the Dogger Bank Zone in the United Kingdom. It will have a consented capacity of up to 1.2 GW.

#### 1. Contact Details for Marine Coordination

The following contact can provide more information if required. Please note that specific queries can also be addressed to the relevant vessel or shore-based representatives.

<b>Duty Marine Coordinator Telephone Number</b>	+44 (0) 7586 332078
<b>Emergency Contact (24/7)</b>	+44 (0) 7586 332078
<b>Email for Marine Coordinator</b>	<a href="mailto:gm_dbmcc@equinor.com">gm_dbmcc@equinor.com</a>
<b>Address</b>	Dogger Bank MCC, Dogger Bank Operations & Maintenance Base, Enterprise Way, East Side, Port of Tyne, South Shields NE33 5SW

#### 2. Ongoing Operations

##### 2.1 Construction Support Activities

The Offshore Construction Support Vessel **Grampian Tees** will continue with ongoing construction support activities within Dogger Bank B construction site.

During operations, all vessels will be restricted in their ability to manoeuvre as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972) and will display the appropriate day shapes and lights. The vessels will also transmit an Automatic Identification System (AIS) message.

##### 2.2 Inter Array Cable Operations

The Service Operations Vessel (SOV) **Norside Cetus** will conduct Inter Array Cable termination and testing operations at various locations in the construction area.

During operations, the **Norside Cetus** will be restricted in their ability to manoeuvre as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972) and will display the appropriate day shapes and lights. The vessels will also transmit an Automatic Identification System (AIS) message.

##### 2.3 Wind Turbine Generator (WTG) Installation

The Jack-up WTG Installation Vessel, **Voltaire**, will commence loadout and installation of wind turbine generators (WTG) within the Dogger Bank B construction area.

The works commencing in February 2026, and will be continuous, 24 hours a day, for the duration of the WTG installations. A running list of the completed WTG installations and the next locations to be installed is presented in the Installation progress table below.

# Weekly Notice of Operations (WNoO)

## Dogger Bank B Offshore Windfarm Construction Operations

Issue Date: 16<sup>th</sup> February 2026

LF600013-CST-DOG-NOT-0002 Weekly Notice of Operations – Rev 150

During operations, the **Voltaire** will be restricted in its ability to manoeuvre as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972) and will display the appropriate day shapes and lights. The vessel will also transmit an Automatic Identification System (AIS) message.

### 3. Installation progress

3.1 All Monopile / Transition Pieces (MP/TP) in the DBB construction site have now been installed and all Inter Array Cables (IAC) have been laid, buried and terminated.

The table below presents the coordinates of the DBB WTG locations and gives an update on the progress of installation of various stages of construction. All locations referenced to WGS 84

ID	Structure	Latitude	Longitude	MP and TP Installed	WTG Installed

---

#### 5. Safety Zones within the Dogger Bank Offshore Windfarm Construction Area

The Secretary of State for Business, Energy and Industrial Strategy (BEIS) has approved the use of safety zones under the Energy Act 2004 for the installation of wind turbines and offshore transformer module foundations/substructures within the Dogger Bank Offshore Windfarm.

The Secretary of State has declared safety zones under the following terms:

During Construction

- 500 metres radius around each wind turbine, offshore transformer module and/or their substructures and foundations comprising the Dogger Bank Offshore Wind Farm whilst work is being performed as indicated by the presence of construction vessels.

(It is noted that the 500 metre safety zones will roll with the installation activity with no more than two construction vessels working at any one time. Vessels are advised that anchors associated with the construction vessels may extend outside of the 500 metre safety zone.)

- 50 metres radius around each wind turbine, offshore transformer module and/or their substructure and foundations installed but waiting to be commissioned as part of the Dogger Bank Offshore Wind Farm.

Positions of foundations installed will be published in the current Weekly Notice of Operations. Only vessels associated with the Dogger Bank Offshore Wind Farm construction may enter statutory safety zones.

The guard vessel and Marine Coordination centre will be responsible for monitoring and policing the safety zones; and can be contacted directly for advice. The guard vessel will be on site 24/7 whilst safety zones are in place.

Further information on the application of safety zones can be obtained from the Marine Coordinator. Users are advised to keep clear of construction activities, including safety zones, within the Dogger Bank Offshore Windfarm construction area in line with Marine Guidance Note (MGN) 372.

ALL VESSELS ARE REQUESTED to give all construction and support vessels a wide berth.

MARINERS ARE REMINDED to navigate with caution and keep continued watch on VHF Ch. 70 / 16 when navigating the area

#### 6. Fisheries Liaison

Fisheries liaison associated with the activity will be co-ordinated by Brown and May Marine Ltd. For any commercial fishery queries please contact:
